BASH BENSHAK HARUNA

JUNIOR SOFTWARE DEVELOPER | BACKEND DEVELOPER | MERN STACK

Nigeria | (+234) 816 703 7439 | benshakharuna23@gmail.com

GitHub: https://github.com/benbash | LinkedIn: https://www.linkedin.com/in/bash-benshak-haruna | Portfolio: https://benbash.github.io/myPortfolio/

PROFESSIONAL PROFILE

Computer Engineering graduate and aspiring Junior Software Developer with hands-on experience in web and backend development. Basic Skill in JavaScript, Node.js, Express.js, MongoDB, Mongoose and RESTful API development, with practical knowledge of authentication, authorization, database integration, validation and responsive web development. Recently completed a Web Development Internship with Codveda Technologies and specialized in Backend Development through TechCrush training, strengthening knowledge of backend architecture, software development practices and the MERN stack. A problem solver with strong communication, teamwork and continuous-learning abilities, seeking an opportunity to contribute to software development and maintenance while learning under experienced developers.

TECHNICAL SKILLS

Programming & Frameworks	JavaScript, Node.js, Express.js, React.js, HTML5, CSS3
Backend Development	RESTful APIs, API Architecture, Middleware, CRUD Operations, Authentication & Authorization
Databases	MongoDB, Mongoose, Database Design
Security	JWT Authentication, bcrypt, Role-Based Access Control, Input Validation
Development Tools	Git, GitHub, Postman, npm, VS Code
Other	Responsive Web Design, Debugging, Technical Documentation, Microsoft Office

PROFESSIONAL EXPERIENCE

Web Developer Intern | Codveda Technologies

Remote | July 2026 – August 2026

- Participated in practical web development tasks involving the design, development and improvement of web applications.
- Applied HTML, CSS and JavaScript to develop responsive and functional web interfaces.
- Worked with development tools and version control practices while completing assigned tasks.
- Debugged implementation issues and improved solutions based on task requirements and feedback.
- Collaborated within a development environment and followed instructions to complete assigned projects within deadlines.
- Strengthened practical understanding of software development workflows, problem-solving and continuous improvement.

ICT Teacher / Server Administrator / House Master | Charis International College

September, 2020 – March, 2026

- Teach ICT and Data Processing to students from JSS 1 through SSS 3.
- Support school technology operations and assist with computer and ICT-related activities.
- Troubleshoot basic technical and computer-related issues and support users where necessary.
- Apply problem-solving, communication, organization and teamwork skills in a technology-driven environment.

Computer Instructor | Divine Master Computer Academy

August 2020 – September 2020

- Taught Microsoft Word, Excel, PowerPoint and Access, alongside CorelDraw.
- Guided learners through practical computer operations and productivity tools.

Computer Studies Teacher / Laboratory Instructor | Pen Resource Academy, Gombe

November 2019 – March 2020

- Taught Computer Studies to JHS 1–2 and SHS 1–2 students.
- Supported practical computer laboratory activities and student learning.

Corp Member | Gombe State Ministry of Science and Technology

October 2018 – September 2019

- Maintained office computers and related ICT equipment.
- Provided day-to-day technical support to staff and assisted with ICT-related activities.

PROFESSIONAL TRAINING

Backend Developer Training | TechCrush

2026

- Completed practical backend development training focused on Node.js, Express.js, MongoDB and the MERN stack.
- Developed RESTful APIs and practiced authentication, authorization, validation, database integration and CRUD operations.
- Gained practical experience with Mongoose, JWT authentication, bcrypt and role-based access control.
- Strengthened understanding of backend architecture, SOLID principles and collaborative software development practices.

SELECTED PROJECTS

FindIt-API | Backend / REST API

Node.js • Express.js • MongoDB • Mongoose • JWT • bcrypt

Lost-and-found backend API supporting reporting, searching and management of lost and found items. Implemented registration/login, JWT authentication, protected routes, password reset, profile management, validation and secure password hashing.

MealMate-API | Backend / REST API

Node.js • Express.js • MongoDB • Mongoose • JWT • Paystack

Food-ordering backend API supporting users, meals, orders and payment-related workflows. Implemented authentication, user role management, MongoDB integration, validation and protected routes.

Terra-Clone | Frontend / UI Recreation

HTML • CSS • JavaScript • Responsive Design

Responsive website recreation developed to strengthen frontend implementation and translation of reference designs into functional web layouts.

StudentGradeBook API | Web Application

Node.js • Express.js • MongoDB

Student grade management application developed to practice backend application logic, database integration, validation and structured application development.

Finsweet Website Clone | Frontend / UI Recreation

HTML • CSS

Responsive website recreation developed to strengthen layout implementation, styling and responsive web design skills.

Task Manager / Todo List Applications | Web Applications

HTML • CSS • JavaScript

Productivity applications developed to practice DOM manipulation, application logic, task management and interactive web development.

EDUCATION

Bachelor of Engineering (B.Eng.) – Computer Engineering | University of Benin | 2017

Second Class Honours (Lower Division)

ADDITIONAL TRAINING

- Backend Developer | TechCrush | August, 2026
- Computer Repairs and Maintenance | Brisk Computer Ventures | July, 2019
- Computer Appreciation and Operations | Uzeaji Computer Resources | August, 2009

RESEARCH PROJECT

Design and Construction of a Wireless Sensor Network Based Automatic Water Pump Control System | July, 2017

CORE STRENGTHS

Problem Solving • Teamwork & Collaboration • Communication • Willingness to Learn • Adaptability • Attention to Detail • Time Management • Technical Troubleshooting • Continuous Learning
